

**Your Love**  
**Written By Karissa Hoffart**

They said write us a love song  
One that makes us wanna sing along  
I said how can I do that  
When I'm barely hanging on

Then You walked into my life  
Showed me everything's alright  
They said write us a love song, so I'm writing one tonight

You give me hope  
You give me strength  
You make me wanna sing

Your love sets me on fire  
Your love slows me on down  
Your love makes me wanna scream your name, around this little old town  
You're my honey bee that gives me butterflies  
And I just can't get enough of  
Your love, your love your love

How can one be so lucky  
To have a man like you on my arm  
I thought fairytales were hopeless  
But now I'm living in one

It was a once upon a time  
I become yours and you became mine  
They said write us a love song, so I'm writing one tonight

Your love sets me on fire  
Your love slows me on down  
Your love makes me wanna scream your name, around this little old town  
You're my honey bee that gives me butterflies  
And I just can't get enough of  
Your love, your love your love

You give me hope  
You give me strength  
You make me wanna sing

Oh

You give me hope  
You give me strength  
You make me wanna sing

Oh

You make me wanna sing

Your Love, Your Love, Your Love

Your love sets me on fire  
Your love slows me on down  
Your love makes me wanna scream your name, around this little old town  
You're my honey bee that gives me butterflies  
And I just can't get enough of  
Your love, your love your love  
Your love your love your love
