

This Life Of Mine
Written By Karissa Hoffart

This life of mine has taught me right from wrong
I've lived and learned to be this strong
I was always taught to be humble and kind
Those who mind don't matter and who matter don't mind

Always try your best to find the light

This life of mine, has taught me to be grateful,
Keep an open heart but always be a bit careful,
Always know I'm loved, If I stand tall Ill rise above,
I've learned to hurt I've learned to survive this life of mine

It's crazy how fast it passes by
When you're having fun time sure flies
Count your blessings at the end of everyday
You'd be surprised by all the good things headed your way

This life of mine, has taught me to be grateful,
Keep an open heart but always be a bit careful,
Always know I'm loved, If I stand tall Ill rise above,
I've learned to hurt I've learned to survive this life of mine

This life of mine brings me happiness
We all deserve to feel pure bliss

This life of mine, has taught me to be grateful,
Keep an open heart but always be a bit careful,
Always know I'm loved, If I stand tall Ill rise above,
I've learned to hurt I've learned to survive this life of mine
