

Whiskey Mood
Written By Karissa Hoffart & Dan Petti

It's time we all get together
Mix up an ice cold drink
I can feel that warmer weather
And the sunshine on my face

We've been waiting to finally get out,
And make some memories,
There's one thing we could use now
A little liquid remedy

We crave a little burn, we got a little thirst, for something a little more strong,
Mix it with a coke, at a rock 'n roll show, or sip it poured on the rocks,
We all deserve a little good time, that's sure to go down smooth
I'm getting loud, I'm getting rowdy, I'm in a whiskey mood

Sittin' round the campfire
Singing classic country tunes
My baby's arms hold me tighter
With every shot of 90 proof

Let's get up on our feet now
And dance right through the night
Until we all fall down
We'll be feeling those summertime vibes

We crave a little burn, we got a little thirst, for something a little more strong,
Mix it with a coke, at a rock 'n roll show, or sip it poured on the rocks,
We all deserve a little good time, that's sure to go down smooth
I'm getting loud, I'm getting rowdy, I'm in a whiskey mood

Wheat, barley, corn or rye
A taste that's made to satisfy

We crave a little burn, we got a little thirst, for something a little more strong,
Mix it with a coke, at a rock 'n roll show, or sip it poured on the rocks,
We all deserve a little good time, that's sure to go down smooth
I'm getting loud, I'm getting rowdy, I'm in a whiskey mood
I'm getting loud, I'm getting rowdy, I'm in a whiskey mood
